

My Dream Job

I want to be a policeman when I grow up because it is a meaningful job. If I become a policeman, I will catch thieves and robbers..

Policemen need to be smart so that they can look for cues and solve crimes. They also need to be fit and strong so that they can run fast and catch the dangerous criminals.

I think this job is suitable for me because I am smart and fit. I hope I can be a policeman some day.
