

My Dream Job

I want to be a policeman when I grow up because it is a meaningful job. If I become a policeman, I will protect and help people.

Policemen need to be brave so that they can catch dangerous thieves and robbers. They also need to be smart. They need to look for cues so that they can solve crimes. Policemen need to be fit and strong too. They need to do exercise so that they can stay fit.

I think this job is suitable for me because I am outgoing and brave. I am smart and fit too. I hope I can be a policeman some day.
