My Dream Job

I want to be a musician when I grow up because it is an interesting job.

If I become a musician, I will perform on the stage.

Musicians need to be hard-working so that they can perform well. They also need to be creative so that they can have lots of ideas to produce nice melodies and lyrics.

I hope I can be a musician some day because I am hard-working and outgoing. I am creative and I am good at playing guitar too.
